238210 – Electrical Contractors and Other Wiring Inst.

561499 - All Other Business Support Services

Differentiator

- ✓ The Elements of Our Culture is in Our Team
- ✓ Teaming partnership of 30+ years of collective government experience
- ✓ Offer competitive industry rates due to our tactical corporate infrastructure
- ✓ Employ leading edge technologies and personnel to establish higher efficiencies at a lower cost, resulting in tangible value for our Government and Commercial customers

Core Competencies

INFORMATION TECHNOLOGY SOLUTIONS
- Software, Application, and Web Portal Development
- Commercial Off the Shelf (COTS) Integration and Health IT Modernization
- Database Maintenance, Operation & Maintenance Support (Tier 1-3)

PROFESSIONAL SUPPORT SERVICES
- Health and Wellness Training, Administrative Operation, and Staffing
- Cabling/Wiring Solutions

MANAGEMENT CONSULTING
- Project/Program Management and Strategy & Planning Support

SUBJECT MATTER EXPERTISE (SME) SERVICES
- Enterprise Testing & IV&V, Clinical Advisory Services, Cyber Security Support

Health IT: Past Performance Highlights

Enterprise Testing Service Support Services (ETSSS) - Dept. of Veterans Affairs, Office of Enterprise Health Record Modernization

E5 supported testing processes for the **implementation** of **Electronics Health Record Modernization** and **integration** with MHS Genesis and other EHR systems to ensure a seamless interoperability and deployment effort. We performed **requirements analysis**, developed **test plans, test cases, test scripts**, and reported documentation results. We provided support in areas of **Capacity Planning Analysis**, **IV&V** (risk and criticality testing) and evaluation support, requirements **validation and performance testing**, **system integration/interoperability testing**, and **Program Management Support**.

Army Geospatial Center (AGC) Information Management/Information Technology (IM/IT) System Engineering and Technical Assistance – U.S. Army Corps of Engineers (USACE), Army Geospatial Center (AGC)

E5 provided Information Management/Information Technology **(IM/IT) support** for operations and maintenance of various **infrastructure services** on a wide variety of unclassified and classified **networks**. This infrastructure includes Active Directory, File, Print, multi-function devices (MFD), Exchange, **SharePoint**, Public Key Infrastructure (PKI), patch management, software distribution, Storage Area Networks (SAN), Network Attached Storage (NAS), MS SQL, PostgreSQL, and Oracle **databases**, Assured **Compliance Assessment** Solution (ACAS), Host Based Security System (HBSS), **Network Operations** Center (NOC), **Security Operations** Center (SOC), Voice over Internet Protocol (VoIP), and **Video Teleconferencing (VTC).**

Health IT: Past Performance Highlights

Electronic Health Record Modernization System (EHRM) - Dept. of Veterans Affairs, Office of Enterprise Health Record Modernization

E5 supported the communication and coordination with application/system owners, firewall engineers, and oversight of a team of **cyber security** personnel who are working on the systems being integrated with/for the OEHRM to support interagency **change configuration management** and cyber processes. We supported as a tracker and facilitator with regards to ports being opened/closed, change control board (CCB) ticketing and evaluating proposed changes' impact. We provided development of **Authority to Operate/Authority to Connect (ATO/ATC) packages**, modification and review of existing ATO documentation, and proactively providing insights into the documentation packets for ATO/ATC for interagency systems and hardware.

Defense Health Services Systems (DHSS) Code Maintenance - Defense Health Agency (DHA), Program Executive Office (PEO)

E5 provided development, update, enhancement, repair, and testing of specific Military Health System (MHS) products for the **modernization** of a number of **legacy applications** and **integration** into the DHSS. We provided **Tier II/III help desk Operations and Maintenance (O&M)** support, management and maintenance of software modifications (**code changes and functionality development**) for various of **applications** and **databases**, support for **testing** and the transition to **production**, management and documentation, and **security maintenance**. To further support the mission, we have formed an **Agile** team for each enterprise application to arrange for on-demand **sprints** to complete the design, development, testing, and deployment of releases.

Command and Control Mission Systems (C2MS II) - U.S. Air Force Special Operations Command

E5 provided operational **Program Management, IT Support, IT Analytical** and technological analysis, **integration**, testing and the implementation of the Risk Management Framework for AFSOC systems. We provide **systems engineering**, support for development, prototyping, sustainment, test and evaluation, and technology transition of C2MS II systems, sensors and networks in support of mission requirements. E5 supported the C2MS II warehouse and associated systems, software, hardware, components to meet **asset management** and **inventory management** programs, including DRMO process. E5 **logistics** and warehouse activities include inventories, maintenance, and movement of equipment worth over $15M to support operations and deployments.

National Initiative for Cybersecurity Careers and Studies - Dept. Homeland Security, Cybersecurity and Infrastructure Security

E5 provided **Operations and Maintenance (O&M) Support** to assure enhancements, functionality, and security updates are applied to the NICCS **portal/website**. E5 supported the creation, management, and refinement of the dynamic **site content** and fact-checking content ensuring **Section 508 compliance** and accessible for **mobile devices**. We conducted **outreach** to the NICCS user communities to **collect feedbacks** for continuous **content improvements** and to increase NICCS Website adoption. We provided in-person **training** for the NICCS Portal when new capabilities, tools, or enhancements are introduced.

Professional Services: Past Performance Highlights

Nationwide Infrastructure Wiring IDIQ - The United States Food and Drug Administration

E5 provided the **infrastructure premise wiring** for the delivery of Information Technology (IT) services and Telecommunications services to all FDA offices located across **CONUS**, as well as **OCONUS**. E5 provided installation of passive infrastructure wiring (**CAT6** and **Fiber Optic**) and associated hardware (**data racks, data cabinets, ladder racks, cable management, patch panels, patch cables, wall plates, jacks, fiber cable,** and **fiber media convertors**) to support the voice (**VoIP** and legacy) and data networks (configuration of **Wireless Access Points)**, including various **network resources** (**printers, copiers, FAX machines, white boards, postage meters, video teleconferencing (VTC) equipment, flat-panel TV monitors, overhead paging systems,** and **audio/visual equipment**).

Conference Rooms Upgrade for NAVSEA HQ - Department of the Navy, Naval Sea Systems Command (NAVSEA) Headquarters

E5 provided 41 **conference rooms upgrade** for the NAVSEA HQ. We removed the existing **VTC equipment** and existing **wiring infrastructure** while disposing equipment, and meticulously logged the serial numbers into the designated logbook for accurate **inventory management**. We installed and provided **configuration/programming** of the **new cameras, TVs, A/V systems, digital control access panel, and projectors**. Provided **testing** to ensure the newly installed equipment worked flawlessly and seamlessly connected to the network along with **SOP**. We relocated 28 **electrical outlets** including **patching up** the drywalls and painting.

Clinical Acquisition for Support Services (CLASS) - Department of the Air Force

In support of the Air Force Clinical Acquisition for Support Services (CLASS) IDIQ Contract, E5 provided full **recruitment**, **credentialing**, **hiring**, **deploying** and management of all types of health service labor categories at Air Force MTFs in **CONUS** and **OCONUS**. Our staff within CLASS task orders includes roles and responsibilities matching **Medical Administration Specialists**, Referral Management **Registered Nurse**, **Referral Management Health Care Coordinator**, and other IRMAC positions.

Holistic Health and Fitness (H2F) Athletic Training Services - Department of Defense (DoD), Department of the Army

H2F program is the U.S. Army's primary investment in Soldier readiness and performance optimization that is implemented by on-site healthcare teams consisting of Athletic Trainers, Physical Therapists, Cognitive Performance Specialists, and other specialized practitioners. E5 provided comprehensive **Athletic Training** services to address the prevalence of overuse injuries—sprains, strains, tendonitis, stress fractures—at Army bases across the U.S. These services integrate **preventative**, **therapeutic**, **rehabilitative**, and **emergency care**, including forward **musculoskeletal** care, early **medical intervention**, and **physical resiliency training**.
